Wetaskiwin Cricket Club

The extravagant language used in a previous article on cricket is calculated to do some harm to the game by inspiring a prejudice against it in the minds of those who have not heretofore played it. It was therefore a pleasant surprise to find several well known devotees of the other ball games looking on and advising with friendly frankness the players in last week's match between the president and vice-president of the club.

The original elevens did not, for various reasons, turn up as expected, so sides were chosen on the grounds and a very pleasant afternoon was passed. This being the first time some of the players had ever faced a field it is not surprising that the scores were small but that the energy and enthusiasm necessary for a good eleven is in the club was proved by so many turning out on such a hot day. Several ladies were among the onlookers, and it is sincerely hoped by the club that their presence will be a feature of every game played.

The match for next Saturday will be between Captain J. Roper and Vice-Captain F. Birch.

Special mention should be made of the bowling of Messrs. Birch, Jackson and McMurdo last Saturday. The last mentioned gives every promise of becoming the Demon Bowler of Alberta after a few more practices. The scores for the match were as follows:

News Notes

Madrid, Aug. 6—The steamer Sirrocco, plying between Genoa Italy, and Buenos Ayres, South America, was wrecked in the Mediterranean and of 930 emigrants on board nearly 400 were drowned. The Captain was among the saved but committed suicide after getting ashore.

London, Aug. 6.—General Booth said he has been receiving 1,500 applications a day from desiring immigrants. The names on the register represents something like 100,000 who were anxious to go abroad this year. Thirteen thousand have been sent this year and 30,000 will be sent next year.

A. DeJardine, of Wetaskiwin is the new teller in our bank. Mr. Swoboda was transferred to the Merchants Bank in Edmonton, where he has been appointed to the position of teller. We join with others in wishing Mr. Swoboda every success, after his having spent three and a half years in our midst.—Leduc Enterprise

Backward, turn backward, oh Time, in your flight, make me a boy again, just for tonight. Give me bliss of that rapturous time, when I could go swimming, say, half the time; give me the blister that followed the bliss on the part of my back the sun didn't miss; give me the belting that followed it then; make me a jubilant urchin again. Backward, turn backward, oh time, in your flight, give me one chance at the teacher tonight, the teacher that larruped me five times a day oh, give me a chance at the teacher, I say! And give me the wood pile as big as a hill; let the pleasure of splitting it cheer me and thrill, while the boys gayly jeer me from over the fence, O, give me that bliss again, darn the expense! The small reservation just over the hill, where the thought of hoeing would give me a chill; the cow that caressed me each eve with her tail as I tried to draw milk for a twenty-quart pail; the hen that forever was wanting to set; the pig with a stomach never filled yet; the measles that hit; the collicky pain—oh, give me the bliss of my boyhood again! If you'd fill me with rapture and cheerful delight, backward turn, Oh Time, in your flight.

One of the most notable speeches at the dinner which was given in London the other day by the Anglo-German journalists, was by the well known Dr. Theodore Barth, of Berlin. After a few conventional sentences, he went on to say that the press of every civilized country was always in arms. The next conference in The Hague would treat the difficult question of disarmament, but it ought to begin with the disarmament of the press. That was not so easy as it seemed to be. A journalist was by nature a fighting man. The influence of a writer went as far as he was read. The readers were the masters of the writer; and many a writer found it more convenient to follow his masters than to educate them; to make concessions to bad taste, sensations, and national prejudices than to pursue nobler aims, to elevate public feeling to be just towards other national vices. All nations were better than they were represented to be. Misunderstanding was the mother of suspicion, and a chief reason of international quarrel,

There is not a man in town, however indifferent to the claims of Christanity, who would want to rear his family here if there were no churches or church influence, for he at once recognizes them as the guardians of the morals of the community. What would be the condition of the community at the end of the next ten years if from this time until then the churches were closed? To what extent would life or property be safe? And yet, with all the organized agencies of the churches, the devil too frequently holds high carnival. What might we not expect if wholly divested of these good influences?

DISTRICT NEWS

Gathered by our wide-awake Correspondents.

Lewisville

Once again the grim reaper has visited this district and taken from our midst one of the most respected residents, in the person of Elizabeth, the beloved wife of Mr. J. A. Grant, general merchant, on Sunday, August 5th. She had not been in the best of health for some time, but the cause of the demise was heart failure. Being in her 77th year, she had passed the three score years and ten, and looked forward with expectation to the meeting of her Saviour. She was one of the most hospitable and kind hearted ladies of the district and respected and highly esteemed by all her acquaintances. The deceased was born in New Brunswick but had only lived here a few years. Mrs. Hutchinson and Mr. J. B. Grant are children of the deceased. The funeral took place on Monday at the Riverside cemetery, Lewisville, Rev. J. H. Bowering officiating. The entire community join in extending sympathy to the grief-stricken family.

Obituary

Contributed by a Friend

Archie, the youngest son of Mr. and Mrs. H. Hougestol, died on Monday, July 9th, aged 19 months.

Farewell thou gentle opening flower,
So early doomed to die ;
Farewell thou parents' cherished hopes
In quiet peace you lie.
That face as fair as angel's dream,
No more on earth we view ;
Forever closed from earthly scenes,
Are those eyes of Heaven's blue.

One of Jesus' little angels,
Singing, singing all the day ;
Plucking flowers in His garden,
Where sunbeams ever play.
And when tired of play and singing,
Resting in the Saviour's arms ;
Safe from all the world's temptations,
Safe from all the world's alarms.

Archie, we shall miss you,
Yet we know you are at rest ;
And our God who loves and keeps us,
Doeth all things for the best.
When we from earth are summoned,
Jesus lead us safely o'er
To Thy home of endless glory,
There to dwell forever more.

Meeting Creek

Haying is on in full blast. Hard work and long days around these diggings just now.

H. Oium came from Bawlf with twine last week. He is getting 4000 lbs, guess he intends to supply his neighbors again this year.

Edberg got a game at last, when they played the New Norway kids.

H. Kibbe did some freighting for our merchant last week. He got stuck at Gould's Crossing and packed about a dozen sacks of flour up the hill on his back.

Camfield was in Bawlf last week. He says it's pretty dry up there, nothing like Meeting Creek for hay and grain.

G. Ouim and Wm. Bottcher took in the sports in Wetaskiwin and report having had a good time.

We understand the Rev. Stavene has resigned. We didn't hear the reason, perhaps poor health. It's pretty tough when a congregation puts one of their best members out in the cold, the best at least financially, just because he can't prove through some mixup of their lumber bills that he didn't appropriate enough lumber to build a poultry house. We don't believe he did and never did, but the good brother should be careful whom he blames for doing the talking. He might have to prove it and if pulled up for slander would be as bad as being asked to resign his place in the church.

Sam Hughes on West

Winnipeg, August 3.—Col. Sam Hughes, M. P. for Victoria and Haliburton, returned yesterday from a tour through the west. As usual the colonel is enthusiastic but his enthusiasm is a practical brand, that which has been tested by experience.

Asked if he had abandoned northern Alberta and Saskatchewan, Mr. Hughes replied, certainly not. On the contrary my interests along the Canadian Northern and C. P. R. Wetaskiwin branch are more pronounced than ever. The chief industries there, the colonel said, were farming and stock raising. The grain looks excellent and although sown on spring breaking yet it will be a good crop

All towns along the C.P.R. and C.N.R. are growing steadily, a healthy growth, the colonel calls it. Settlement is coming in very rapidly, but whether it is due to liverymen desirous of increased fares for long hauls, or by design of government officials, settlers are usually taken along the G.T.P. and other lines. It is my intention to test the experiment in Vermillion district by breaking up a section or two of land with a steam plow, concluded the colonel.

Alberta Editors Will Meet

The annual meeting of the Alberta Press association for 1906 will probably be held on August 27. Something depends on the arrangements which can be made with the railway authorities. Negotiations regarding transportation have been in progress for some time, and as soon as the plans are sufficiently matured a circular will be sent to the members.

The association numbers about 40 members, embracing practically all the papers in existence last year in Alberta and Eastern British Columbia. Several new papers have been started since and are now eligible for membership Those wishing to join, or any member having suggestions to offer, are asked to communicate with the president, John J. Young, of The Herald, or the acting-secretary, Box 142, Calgary.—Herald

Will Build to Calgary

Calgary, Aug. 3—The result of the interview between Mr. Morse, the general manager of the Grand Trunk Railway, and the business men of Calgary, which occupied the greater portion of yesterday was very satisfactory to the people of Western Canada.

So much was said, so much was done, so much was hinted at during the day, so many words were used which were so meaningless and many which were so full of meaning that it is difficult to arrive at the real business that was transacted.

But Mr. Morse stated as definitely as a man can state that the Grand Trunk Pacific would be in this city in a very short time and there was no reason to believe that it would not be here as soon as it would be in Edmonton, though that was not the original intention.

He had been asked if the G. T. P. purpose putting a road simultaneously into Calgary and Edmonton. This he had not contemplated, but it might be arranged. He had contemplated putting the line through to Edmonton this fall, but owing to the scarcity of labor the matter had been delayed.

For the secondary line which would be brought to Calgary, he wished the material to be brought over his own line. He didn't think, however, that it would be difficult to build to Calgary and Edmonton at the same time. In coming into Calgary he would like to do it in such a manner as the city deserved. The future dealings of the G. T. P. with Calgary would depend upon the service they gave.

How Many?

A farmer on a poor (?) New Hampshire farm of eighty acres under tillage, keeps 86 head of cattle, 9 horses and 12 hogs. How many cattle and hogs should a farmer in Alberta, where the land is supposed to be so much better than in stoney New Hampshire, keep? If our methods were right we should keep at least one cow per acre. How many hogs, how many sheep? These questions are even more difficult to answer. Certainly we are not keeping as many as we ought. We have so much yet to learn regarding the handling of swine and sheep, and the profits to be made out of them are so much greater than we think they are, that the prospects of reaching our limit in either direction is exceedingly remote. And poultry? Well, the possibilities for expansion in this direction are even more limitless—Ex.

A Long Prairie Voyage

One evening last week a few white specks were discerned upon the distant horizon to the south. Shortly after a fleet of prairie schooners could be plainly seen, steering straight for this port with all sails set. It was not long before they had safely reached the end of the day's voyage and cast anchor upon the vacant lots west of the skating rink.

The entire passengers and crew consisted of G. W. Coleman and dog, all the way from Greely, Colorado, and Mr. H. Oleson, with his wife and two children, and Mr. R. Oleson, of Bozeman, Gallitan county, Montana.

Mr. Coleman left his home in the State of Colorado three months ago, and travelled alone with his dog until he came up with the Oleson family. During his trip the dog killed ninety-three cayotes and grey wolves.

Each "schooner" carried a stove, a bed and a well stocked larder and each member of the party heartily enjoyed the trip.

Early the following morning the party "cleared the Customs" and continued on the voyage to Edmonton.

*When a woman suffers from depressing weaknesses, she then keenly realizes how helpless—how thoroughly worthless she is. Dr. Shoop has brought relief to thousands of such woman. He reaches diseases peculiar to woman in two, direct, specific ways—a local treatment known by druggists everywhere as Dr. Shoop's Night Cure, and a constitutional or internal prescription called Dr. Shoop's Restorative. Dr. Shoop's Night Cure is applied locally, and at night. It works while you sleep. It reduces inflamation, it stops discharges, it heals, it soothes, it comforts, it cures.

Dr. Shoop's Restorative (tablet or liquid form) is a constitutional, nerve tissue tonic. It brings renewed strength, lasting ambition and vigor to weak, lifeless woman.

THE SCHOOLTEACHER.

How a Young Man Fresh From College Makes His Start.

A young man fresh from college who decides to become a schoolteacher has many things to consider. The profession, if it can be called a profession, is still unorganized. No standard of excellence, no diploma certifying ability, is required. Methods of teaching in public schools in New York state are very different from those in Colorado, and those in Utica are different from those in Buffalo. There are private schools of all kinds. These are almost as many methods of teaching arithmetic as there are of teaching vocal music. To obtain his first position he ordinarily joins an agency. He takes to the agency his record at college, supplemented by as many pleasant recommendations from his professors as possible, pays his yearly fee and promises the agency a certain percentage—5 per cent usually—of his first year's salary. Occasionally his college will find a place for him in one of the schools that prepare directly for it. At any rate, he will find without great difficulty a position that will support him. Perhaps it will be in a little denominational boarding school, where he will teach thirteen different subjects during his first year, as one man I know did. If he survives his first year successfully and with some measure of content in the work he is likely to be a teacher for the rest of his life.

CHARMING DOLLY MADISON

The Greatest of All the Mistresses of the White House.

To define the charm of a charming woman is always difficult. Dolly Madison's features were not regular, nor was her figure perfect. She was not witty, nor was she wise, and she participated little if at all in her husband's intellectual life. Nevertheless she stands out as the greatest of all mistresses of the White House, and her popularity was unbounded. She ruled over her world in Washington with genial good nature and instinctive tact. Her nature was warm, affectionate and impressionable. She loved life and people, and her world loved her. Her brilliant coloring, animated face and well rounded figure went with a cordial manner and a sympathy for those about her amounting to genius, and she was always ready to bubble into laughter.

Who could resist such a woman, the wife of a president? She was the center of observation at the inaugural ball, but she would have been the center of observation at any ball even if she had not been the president's wife. She had, in fact, ruled as indisputably over the little boarding house in Philadelphia kept by her mother when she was the Widow Todd as she did over the White House as Mrs. Madison.—Gaillard Hunt in Century.

CANADIAN CASTLES.

The Most Interesting Is Chateau de Ramezay at Montreal.

To Americans castles are associated with the storied Rhine, picturesque England or France and Spain, but it is interesting to be reminded by the St. John (P. E. I.) News that there are a number of ancient Canadian castles still existing, the chief ones being St. Ours, Rimouski, St. Eustache, Lotbiniere, Montibello, Ste. Marie de la Beance, Vaudreil, Rouville and, most interesting of all, the Chateau de Ramezay at Montreal. The latter was built in 1705 by Gertrude de Ramezay, at that time governor of the district of Montreal and knight of the Royal and Military Order of St. Louis. From him was descended the last French governor of Quebec at the time of the capitulation in 1759. From that time to 1840 the castle remained in the possession of the government and was the residence of the French and English governors until the capital was transferred from Montreal to Quebec. It is now owned by the Antiquarian society, which has made of it a museum for historical relics of the old regime, and as such it possesses much interest for visitors to the one time capital of New France.

The Gold In the Ocean.

The fact that sea water contained gold was first made patent, we believe, by the observation that the deposit on the copper plating of jetty piles in sea harbors was comparatively rich in the precious metal. On the estimate that a ton of sea water contains approximately one grain, the yield would amount to something like 200 tons of gold per cubic mile and, as the volume of the world's ocean is estimated at 400,000,000 cubic miles, the total possible yield of gold would be no less than 100,000,000,000 tons—a truly attractive prospect to the company promoter.—London Lancet.

A Cruel Threat.

Mr. Snips (who has called about that long standing account)—So you won't pay today, eh? Well, now, I warn you if you don't settle with me by this day week I'll go round to all your other creditors and tell them that you've paid me in full, and then you'll have 'em all down on you. See what I mean?

Disappointing.

Rector's Wife (to village grocer)—Well, I hope you like our new curate. Grocer—Yes, ma'am, thank you; we like him very well (pause); not, however, that I think he's as fluent as we had a right to expect, seeing as his father was an auctioneer.—London Telegraph.

Found a Mineral Spring

Red Deer, Aug 1—Our townsman, Dr. Grant, left Red Deer over a month ago for a journey west and north of Edmonton.

He has now returned and as the result of indefatigable preseverance and splendid dash the plucky Doctor has secured a wonderful mineral spring in the mountains about 275 miles from Edmonton. It seems likely to surpass the famous springs of Banff, though the water is probably somewhat similar quality. The heat of the water however, is much greater than that of Banff, and there is a much larger flow.

Best Kidney Remedy Known To Science

For pain in the back—scanty urine—highly colored urine—irritated bladder—irregular bowels—bad stomach—there is nothing that will bring such quick relief and so certain a cure as FRUIT-A-TIVES.

These marvelous tablets are nature's natural remedy for irritated or weakened kidneys. They act directly on the kidneys—soothe the irritated membranes—clean, heal and strengthen the organs—and help them to new vigor with their work.

Often kidney trouble is not due to any organic defect in the kidneys. If the bowels are constipated—if the skin does not throw off the tissue waste of the body—then these impurities are carried to the kidneys. In a vain endeavor to rid the system of impurities, the kidneys are overworked—the blood vessels are dilated—the nerves inflamed. That causes a host of kidney troubles.

Fruit-a-tives
OR "FRUIT LIVER TABLETS"

not only heal and strengthen the kidneys but they also increase the action of the skin, and act directly on the liver, thus curing the constipation.

FRUIT-A-TIVES are the natural and logical cure for all kidney troubles. They are made of fruit and tonics—are pleasant to take—and a guaranteed cure when faithfully used. 50c. a box or 6 boxes for $2.50. Sent on receipt of price if your druggist does not handle them.

Millet

A number of immigrants have dropped off at Millet in search of homesteads this summer, a large number are expected in August.

There are a large number of good homestead quarters lying west from this place and a thoroughly posted Government Land Guide is at anybody's service searching for free land.

Crops are looking fine around Millet and a good harvest is expected.

An entertaining surprise party was witnessd a mile and a half north of here Saturday night. A couple of Laplanders being present and with the aid of Slim playing goo-goo eyes made it an enjoyable evening.

Babe Gregorie is doing a large business taking pictures, especially just across the street.

Sing a song of baseball,
Don't it make you smile,
Millet and Leduc'ers struggling in a pile,
When the game is over,
Oh, hear the groans—
Two of the catchers were looking for their bones.

There's ONE Furnace that can't waste fuel

Can't, because its grate-bars are triangular and hollow, its feed section gas-tight,—so it MUST burn enough AIR with the fuel to insure perfect combustion and no up-the-chimney-smoke-waste.

See the lengthwise corrugated walls in the fire-pot? That means long life for this furnace. See the one-way fire travel? That means quick use of the fuel's heat.

Fire doors big enough to take rough wood, big coal, —cheap fuel does more in this furnace than hard coal in most. Look it over — 'twill pay.

It burns fuel RIGHT—'tis easy to run—easy to buy—sure to save you money first and last. Come and look

Battle River

Our second attempt at picnicing met with better success than the first. Though again fixed for a Tuesday the weather for the greater part of the afternoon was all that could be desired. The threatening appearance of the forenoon, however, daunted many and the attendance was not quite as large as it would otherwise have been.

Baseball led the way and an interesting game was played. Then followed a program of races, foot races for girls, boys and youngmen, wheelbarrow race, fatigue race, obstacle race, old men's race, all of which were keenly enjoyed both by participants and spectators.

Supper was provided by the ladies present and was served on tables erected in a shady spot among the bushes. Ample justice was done to the display of good things.

Fortified by supper the bachelors challenged the married men to a grand tug-of-war. A new rope was provided and ten determined bachelors arranged themselves against ten equally determined benedicts. The married men had hard work to gain a victory but their superior weight a length won the day. The advantages of married life were thus clearly demonstrated. It was freely predicted that some of the bachelors will next year be pulling at the opposite side of the handkerchief.

A game of football had been looked forward to but at the appointed time it was found that the football had sprung a leak and the game had to be abandoned.

Thanks are due to all who by their presence and their efforts helped to make the afternoon enjoyable.

Haying operations are now in full swing. The crop of hay this year is [redacted] side of the river, near the main road, on land owned by Mr Hutcheson. Deepest sympathy is extended to Mr. Grant and all the sorrowing relatives in their loss

How Much for Your Eyes ?

Would you voluntarily consent to any price to dispose of your eyesight?

I think not, and yet perhaps you are one of those who, by neglect, are irretrievably losing at least a portion of their eyesight.

If your eyes need help, the most likely way to assist them is by wearing glasses perfectly fitted.

Our business is to perfectly fit glasses. This we do as cheaply as is consistent with good work.

Chas. H. Olin, the Government road inspector and bridge builder, informs us that about $18000 will be spent in Wetaskiwin district this year in roads and bridges. About $5000 will be expended on the roads East of the City and $4500 on the Western roads. Three bridges are being built in the west, while large bridges are being built near Camrose, and near Duhamel. This will greatly improve the highways throughout the district but it is not nearly as much as should be expended in so large and important a district.

New Teachers Engaged

A special meeting of the Alexandra school board was held on Saturday afternoon last, to consider the resignation of Misses Brown and Burgar, from the teaching staff, there applications for positions on the McKay avenue school staff, Edmonton, having been selected by the school board of that city. It was resolved that the resignations be accepted with regret. It was also resolved that Miss Fash, of Strathcona and Miss Close, of Red Deer be engaged to fill the vacancies. These ladies have gilt-edge qualifications, and no doubt are quite capable of assisting to keep the Alexandra school at the high degree of efficiency it has attained. The school term commences August 27th. Since the above was put in type we hear that Miss Fash has declined the offer.

Harvesting General in Alberta This Week

Barley and wheat harvest began in many sections of Alberta last week, and toward the close of this week will be general thoughout the province.

Reports from all sections are uniformly gratifying and grains of all kinds promise a yield of at least the average, while the increased acreage will make the total distance all previous records. The growth of straw is generally sufficient, but not excessive and damage from lodging will be the minimum.

Oats are advancing rapidly, fields in the neighborhood of the city already growing lighter in color and the oat harvest will follow closely on the cutting of the earlier grains. Weather conditions continue perfect and with a month of such weather the grain crop should be pretty well cared for Haying has been general for several days and will probably be practically completed by the end of the week.—Bulletin.
